Make Assurance Doubly Sure

You may be a light sleeper and an accurate "waker," but
an alarm clock will render it doubly sure that you do not over-
sleep. We have just received 100 Parker's alarm clocks, solid
cut steel pinions, rotary alarms, which promote durability and
does away with the big slot in the case—always so great a dust
collector. They are certainly the very best we have ever seen
at their prices, \$1.25, \$1.50 and \$2.00. We shall be pleased to
show them to you.

Instructions.
My Dear Friend:
You must bear in mind that this
medicine is not a poisonous tonic, nor
a stimulant, nor a temporary relief,
which you get from poisonous drugs,
where the results are sure death soon-
er or later. Those poisons go in your
bones and destroy the life of them
and create all kinds of diseases, can-
cerous tumors, consumption, dropsy,
bone diseases, etc. Do not blame the
medicine when it takes an effect and
stirs up the poisons or disease in the
system. You must not expect to be
cured in a few days, for your sickness
or disease has seen a long time com-
ing on, and it will take a long time
to get it out of your system. It will
take months or a year to build up a
new body from the bones up. This is
what the people do not understand.

scores of patients and friends can tes-
tify to his skill in their cases.

New York, Sept. 2.—Henry Hunter,
the negro who shot a number of po-
licemen, and set fire to his house in
Queensborough Monday night, in an
effort to escape arrest, has been cap-
tured and locked up in the Astoria
jail. In the fight between Hunter and
those who tried to arrest him, eleven
policemen, three citizens and Hunter's
wife were wounded. Mrs. Hunter, who
helped her husband in his effort to
escape, was taken to a hospital, where
it is said today that she is in a serious
condition. Hunter was badly beaten
in the struggle when he was caught.

ROOSEVELT IN A COLLISION

Has a Narrow Escape from Being Run Over by an Electric Car.

President and Party Were Hurlled Into the Air and Fell Hard With Carriage on Top

The President Had a Marvelous and Providential Escape— Car Was Racing to See the Distinguished Party

Lenox, Mass., Sept. 3.—An electric car, running 30 miles an hour, struck
the landau, carrying the president, Secretary Cortelyou and Secret Service
Officer Craig, this morning, instantly killing the latter, and slightly injuring
the president. Roosevelt was cut and bruised, but instantly sprang to the
assistance of Craig. Cortelyou was uninjured.

Details of the Accident.
Lenox, Sept. 3.—Later details say
the report of Driver Pratt's death are
untrue. He is still alive, but uncon-
scious. In addition to those first
named in the party was Congressman
Lawrence, of Massachusetts, who was
bruised. The car struck the carriage
from the rear. The party was hurled
into the air, the wreck of the carriage
striving the president after he fell.
Cortelyou became unconscious. His
first question when he revived was,
"How is the president?" Governor
Crane, is now in bed. A military guard
of four mounted men first gave aid,
and were assisted by Secret Service
Agent Taylor and Postoffice Inspector
Meyers, who were in a second car-
riage. President Roosevelt was at-
tended by Dr. Lung, who was in the
third carriage. Craig's body was
found under the car horribly mangled.
Driver Pratt saw the car and
tried to urge his four horses across,
and the motorman attempted to stop,
but the impetus was too great.

At Stockbridge, where the party
was to have taken lunch, the president
stepped out of the carriage plainly
under great mental distress, and told
the silent, assembled throng of the ac-
cident, and paid a tribute to Craig,
saying, "my faithful friend is killed."

Stock Exchange Affected.
New York, Sept. 3.—The narrow es-
cape of President Roosevelt has had
a decided effect on the stock market,
checking speculation in a great degree.

Lenox, Mass., Sept. 3.—The presi-
dent passed last night as the guest
of Governor Crane, and the party left
this morning for a 20-mile drive to
Lenox. At Pittsfield, Secretary Cor-
telyou received an urgent request
from the people of Canaan, 16 miles
further on, to ask the president to
make a speech, but was obliged to re-
fuse.

The accident occurred one mile from
Pittsfield, near a country club house,
at an obscure road crossing. Immedi-
ately after the accident was known a
fresh carriage from the club conveyed
the president to Stockbridge, where a
special train was waiting. A special
guard on horseback, at the president's
request, raced ahead, spreading the
news of the accident to the people who
had assembled to greet him, and ask-
ing them to refrain from cheering.

Craig had been the president's per-
sonal body guard ever since Roose-
velt took the oath of office. He was a
noted athlete and a champion broad-
swordman. The president saw that
the remains of Craig were cared for in
his arrival here, after which he retired
to his hotel. Secretary Cortelyou says
the accident makes all present plans
indefinite.

DEMAND CONTROL OF WATER

California Democrats Adopt a Strong Platform

Sacramento, Sept. 3.—The morning
session of the Democratic state con-
vention was taken up in reading re-
ports of committees. Nominations
will be made this afternoon. The plat-
form contains a strong irrigation
plank, demanding the public ownership
and control of water ways, asking that
water rights may not be sold apart
from land for irrigation; an increased
assessment on corporations in de-
manded; especially taxation on fran-
chises; an eight-hour day, and Isth-
mian canal is favored, and the trusts
denounced.

The platform is silent on the cur-
rency. The Kansas City platform de-
mands the same measure of liberty to
the Filipinos as citizens of territories,
and endorses the Chinese exclusion
laws. The following were nominated
for congress by acclamation: Thos.
S. Ford, of Nevada City, first district;
T. A. Bell, of Napa, sixth; and Wm.
Smythe, of San Diego, eighth.

Wants Negroes to Vote

New Orleans, Sept. 3.—President

denounced the disfranchisement of the
negroes in the South.

OPERATORS AND MINERS.

Wright Thinks He Has Got at the Root
of the Trouble.
Washington, Sept. 3.—Commis-
sioner Wright's report of the anthracite
strike situation was made public this
afternoon. He says the chief cause is
the lack of mutual confidence between
operators and miners. He suggests
that the operators concede a nine-hour
day for six months. He believes a
remedy for the troubles would be
found by the organization of a joint
committee of conciliation composed
of operators and union representatives
whose decisions should always be
binding.

Strikers Feel Assured

Tamaqua, Pa., Sept. 3.—Rumors that
the strike was about to be settled
strengthened the strikers this morn-
ing, less men applying for work. No
violence of any kind has occurred, and
but little attention is paid to the men
going to work.

Northern Pacific in Earnest

Tacoma, Sept. 3.—The Northern Pa-
cific railway has absorbed the Wash-
ington and Oregon railroad and its 20
miles of new road from Kalama to
Vancouver, whence the Columbia is to
be bridged, when the new entrance to
Portland is secured. Congress will be
asked for authority to bridge the Wil-
lamette near Portland.

VOLCANIC DISASTER AT MARTINIQUE

1060 Persons Were Killed and 1500 Injured During the Eruption of Mt. Pelee

Paris, September 3.—The minister
of colonies received the following
from Fort de France this afternoon:
"Eruptions of Mount Pelee have re-
commenced with excessive intensity,
and the volcano has extended its ac-
tivity toward the interior, broadening
its radius by the destruction of Morne
Rouge, Ajoupa, Boulton, Morne Bon-
den and the villages of Balai and Ca-
pot Bellevue, which were totally de-
stroyed on the 30th and 31st of Au-
gust. More than 1000 victims have al-
ready been found, 800 of whom are
dead, and the list will increase."

SENATOR QUAY'S POLITICAL BLUFF

Seeks to Quell the Republican Revolt By An Appeal to the Coal Miners

New York, Sept. 3.—According to
reports here today, Senator Quay has
issued an ultimatum to the coal road
presidents that the anthracite strike
must end within two weeks, and he
said to have coupled his demand with
a hint that a special session of the
Pennsylvania legislature would be
called in case of failure to do so, and
pass laws not pleasing to the opera-
tors. Fears for the defeat of the Re-
publican candidate for governor are
said to be the cause.

WATER RIGHT SUIT

Over the Power That Supplies Two Towns

The suit of the Union Light & Power
Co. vs. Litchy was heard before
Judge Boise today on injunction pro-
ceedings, Covert & Stapleton and J. K.
Kollock, of Portland, and Carson &
Adams, of Salem, appearing for plain-
tiff and Adams, of Silverton, and Bing-
ham, of Salem, for defendant. It ap-
peared that the plaintiff corporation
had a water-power to furnish light and
power for Woodburn and Mt. Angel.
Litchy built a flood-dam to hold logs,
and in the month of July, when Silver
creek runs low, he shut off the water
supply of the light company, and kept
the towns served by it in the dark.
The principal question, which the
court took under advisement, after
hearing the argument of counsel, was
whether shutting off the water for so
long a time was a reasonable use of
the water, as Litchy operated on the
stream above the water power of the
light company. A decision will be
rendered later.

SALEM'S FOURTH OF JULY COM-

BALANCE ON HAND OF \$396.50.
The general committee on Salem's
Fourth of July celebration held a
meeting Tuesday night, when the re-
ports of the secretary and treasurer
were received, showing an unexpended
balance of \$396.50 remaining in the
hands of Treasurer Merriman. Secre-
tary Graham's report on the receipts
and disbursements of the celebration
fund showed the following totals:
Amount collected on subscrip-
tion \$1123.88

desa of Liberty contest 480.65
Received from H. D. Patton,
chairman, "Battleship Ore-

in W. Merriman's (treasur-

The members of the committee then
discussed various propositions that

sirable way of expending the money in
the interest of the general public. The
result of the committee's deliberation
was the appointment of sub-commit-

Marion Square Improvement Com-

W. Merriman; to investigate propo-
sition for providing Willson avenue
